

## New and improved Interactive Whiteboard Software for Top Secret (Senior ABC)

### August 2010

The successful Senior ABC series now has new *Active Teach* interactive whiteboard software, which is the **most advanced** interactive whiteboard resource for Senior ABC classes in Greece.

### Users' favourite features of the new *Top Secret Active Teach* include:

- Double window mode - a simple facility which enables the user to simultaneously view any two pages of their choice
- Add resources & resource index library facility – allows teachers to add any extra material to the software and save it for their future reference
- Show answers facility – all exercises with answers viewable to the teacher and students at the click of a button
- Teacher profile option - allows users to save their unique profile settings so that the software 'remembers' their preferences each time they use it
- Users can now bookmark, add and save notes to any part of the material
- Many additional new interactive exercises and fun Top Secret agent games
